Pain in the head—pain anywhere, has be duled a like in its congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though safely, it surely equalizes the blood circulation.

you have a headache, it's blood pressure.
it's painful periods with women, same cause,
you are sleepless, restless, nervous, it's blood If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's concestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

Portland Cement Co.

On the New Year, the News will issue an eight page, special paper edition descriptive of the Portland Cement Company and complimentary to its officers for whom the editor acknowledges a friendship to extent and of character commensurate only with our full ability to appreciate the leading benefactor of his daily paper career. Except the Cement Company had come at the veritable crisis in the life of Ada and inspired new life and inspiration and mayhaps increased the bread supply of some of our citizens, the daily edition of the News-the pride of ttownbuilders of Ada-would have suspended publication. Is it not likely some other institutions in Ada would have been in close pursuit? At the Yule time, should we not think kindly of our leading manufacturing institution?
